## PROJECTS

---

**Code In-Turns || HTML,CSS,Javascript,Bootstrap** [\[Website\]](#)

A website developed for an online hackathon, Code In-turns.

Website uses HTML,CSS,Javascript as frontend and Django as backend.

**Screen-Recording || React,Firebase** [\[Github\]](#)

The app will allow users to record their online classes/meetings and store them on firebase.

The app has an in-build timer to track the time spent in the meeting.

**Dev-jot || HTML, CSS ,JAVASCRIPT** [\[Github\]](#)

Worked with a team to build an open source note-taking project. Implemented the frontend on the vanilla version of the app to make it look more attractive.

Users can write, save as well as edit the previous notes.
